

SCUBA INSTRUCTOR TRAINING

THE COMPLETE NEED-TO-KNOW GUIDE

HIGH QUALITY INSTRUCTOR TRAINING

Get started on a career in SCUBA instruction in Mallorca, Spain

F-XS/36/2

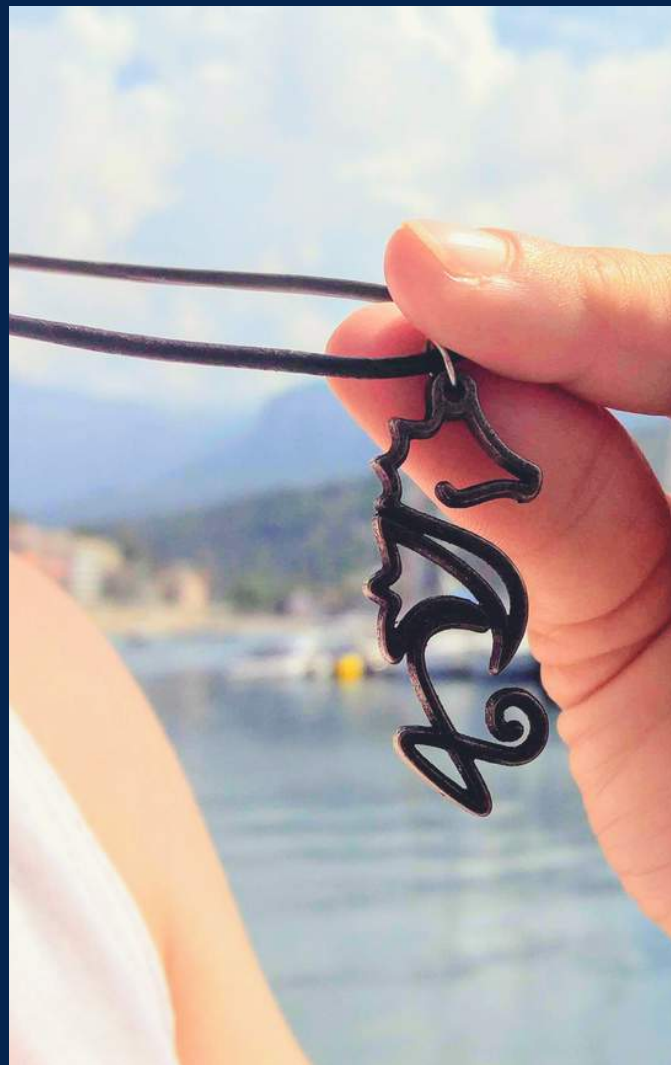

WHY WITH SAGA?

1. SAGA (www.divesaga.com) has a very successful **Job Placement Assistance program** and nearly all graduates from our IDC program find themselves employed in the industry. We do this through resume writing guidance, providing leads for job interviews and interview coaching.

2. Our Instructor Development Courses have a **slower pace** than the industry standard, which allows us to spend more time on real-world application, digital tools and even try out some fun and interesting dive tools such as Fullface masks or Diver propulsion Vehicles (DPV).

3. Our two Platinum Course Directors have an unprecedented **100% success rate** on Instructor Examinations. These exams are conducted externally by PADI staff so our only influence on your score is our thorough training.

4. After your IDC, we stay committed for life to you as a diver and you'll receive **10% off on dive travel** for life on our yearly bucket-list destination dives.

Why Mallorca?

1. Our SAGA IDC is conducted at Zoea Mallorca in Santa Ponsa, near the capital of Palma de Mallorca. This makes this destination **easy to reach** from all over Europe and North-America while still having a nice Mediterranean island feel.

2. You'll be enjoying training at a very **well equipped dive center** with three fast boats, highly maintained equipment and compressors, providing dry suit, nitrox, doubles, dpv's or any other dive options for those who wish.

3. We are uniquely located right next to two **Marine reserve sanctuaries** that have shown an exceptional recovery from the usual mediterranean overfishing. El Torro marine reserve even hosts 60 different kinds of Nudibranch, large schools of Barracuda, Octopus, Tuna, Scorpionfish, Eels, Grouper and much more.

4. Depending on the time of the year, you may be facing some dive conditions that can be challenging such as colder water or a strong current. While this sounds like a negative point at first, it's ideal instructor training conditions so nothing can surprise you when you are teaching in real life!

5. Mallorca has a very big **yachting industry** which is a plus for those who already are familiar with this line of work, wish to combine their passions or even want to find entry into the yachting industry alongside their SCUBA instructor credential.

MSDT Specialty Instructor Training

After the Instructor Development Course and the Instructor Examination, we offer the option to distinguish yourself from other PADI professionals and to further your skills by taking specialty instructor training.

Among other options, you'll be able to take the following popular specialty instructor courses:

- Enriched Air Nitrox Instructor
- Deep Instructor
- Wreck Instructor
- Dry Suit Instructor
- Adaptive Techniques Instructor
- Full Face Mask Instructor
- DPV Instructor

"IF YOU TRULY LOVE WHAT YOU DO, NOBODY CAN EVER STOP YOU"

WHO WILL I WORK WITH?

Nick Derutter is a **PADI Platinum** Course Director, a title awarded to those Instructor Trainers who make a considerable and positive impact on the training industry by offering regular, high quality programs.

Born in Belgium, Nick lives on the Caribbean islands of Utila, near Honduras where he teaches PADI Instructor courses and organizes Technical Diving Instructor Training.

When not running PADI IDC's in Utila or Mallorca, Nick organizes bucket-list dive travel, as the founder of diveSAGA.com and runs a very dedicated job placement program for his graduates.
